

Excel Consolidator — Audit Report

Auto-generated report of all data transformations

Transformation Log

Every step performed on your data, in order:

1. Loaded inventory.xlsx — 5 rows, 6 columns: ['Material ID', 'Product Name', 'Stock Quantity', 'Unit Cost', 'Last Updated', 'Warehouse']
2. Loaded purchasing.xlsx — 5 rows, 6 columns: ['Item Code', 'Vendor', 'Purchase Price', 'Quantity', 'Purchase Date', 'Invoice No']
3. Loaded sales.xlsx — 6 rows, 6 columns: ['SKU', 'Customer', 'Sale Price', 'Units Sold', 'Sale Date', 'Invoice Number']
4. Loaded vendors.xlsx — 5 rows, 5 columns: ['Supplier Name', 'Contact', 'Payment Terms', 'Rating', 'Category']
5. Claude identified 7 column mappings
6. inventory.xlsx: Standardized date column 'Last Updated' to YYYY-MM-DD format
7. inventory.xlsx: Stripped whitespace from all text columns
8. inventory.xlsx: Cleaning complete — 5 rows remaining
9. purchasing.xlsx: Standardized date column 'Purchase Date' to YYYY-MM-DD format
10. purchasing.xlsx: Stripped whitespace from all text columns
11. purchasing.xlsx: Cleaning complete — 5 rows remaining
12. sales.xlsx: Standardized date column 'Sale Date' to YYYY-MM-DD format
13. sales.xlsx: Stripped whitespace from all text columns
14. sales.xlsx: Cleaning complete — 6 rows remaining
15. vendors.xlsx: Removed 1 duplicate rows
16. vendors.xlsx: Filled 1 missing text values in 'Supplier Name' with 'Unknown'
17. vendors.xlsx: Filled 1 missing numeric values in 'Rating' with 0
18. vendors.xlsx: Stripped whitespace from all text columns
19. vendors.xlsx: Cleaning complete — 4 rows remaining
20. inventory.xlsx: Renamed columns {'Material ID': 'Product ID', 'Stock Quantity': 'Stock', 'Last Updated': 'Date'}
21. purchasing.xlsx: Renamed columns {'Item Code': 'Product ID', 'Purchase Price': 'Unit Cost', 'Purchase Date': 'Date', 'Invoice No': 'Invoice Number'}
22. sales.xlsx: Renamed columns {'SKU': 'Product ID', 'Sale Price': 'Selling Price', 'Units Sold': 'Quantity Sold', 'Sale Date': 'Date'}
23. vendors.xlsx: Renamed columns {'Supplier Name': 'Vendor'}
24. Merged 4 files into one consolidated DataFrame
25. Final consolidated data: 20 rows, 17 columns
26. Final columns: ['Product ID', 'Product Name', 'Stock', 'Unit Cost', 'Date', 'Warehouse', 'Source File', 'Vendor', 'Quantity', 'Invoice Number', 'Customer', 'Selling Price', 'Quantity Sold', 'Contact', 'Payment Terms', 'Rating', 'Category']

Consolidated Data Summary

Metric	Value
Total Rows	20
Total Columns	17
Columns	Product ID, Product Name, Stock, Unit Cost, Date, Warehouse, Source File, Vendor, Quantity, Invoice Number, Customer, Selling Price, Quantity, Contact, Payment, Rating, Category

Data Preview (first 10 rows)
